

Visit the Information Analytical and Resource Center of the Ministry of Water Resources of the Republic of Uzbekistan.

On March 4, 2020, talented students of the Eureka club, which operates at the Department of Hydraulics and Hydroinformatics of the Department of Irrigation and Reclamation, visited the Information and Analytical and Resource Center of the Ministry of Water Resources of the Republic of Uzbekistan. During the visit, a round-table discussion held with the director of the center V. Akhmadzhonov and R.Saidov and also with other specialists. During the round table, presented the presentation of the project “Development of the water sector until 2030” and “Smart Water”. Students asked a lot of questions about Smart Water technology.

During the round table, students and the dean of the Department of Irrigation and Reclamation A.M. Fatulloev, and doctoral candidate of the Department of Hydraulics and Hydroinformatics L. Samiev asked a number of questions. The round-table discussion was rich, interesting and informative. At the end of the round table, Dean of the Department of Irrigation and Reclamation A.M. Fathulloev and doctoral student L. Samiev thanked the director of the Information-Analytical and Resource Center V. Akhmadzhonov for organizing this event.
