

Important event in “5 days” programme of spring

On the last fifth day of the Festival "5 Days of Spring" held by the Council of the Youth Union of the "Hydromelioration" faculty of our institute a competition of national dishes among the teams was held. The contest was held in a very nice and intense atmosphere. The competition was organized with the participation of several groups. Each group wrote a tablecloth and decorated it in delicate style, giving them a real spring view of gourmet and delicate national dishes.

It is not an exaggeration to say that when we make this selection, it's a great idea to share the joyful gesture. It was not easy to find a sincere smile that reflected the joyful smile on the face of everyone. The girls were able to demonstrate their true skill in this contest. At the end of the event, the most well-decorated table prizes were judged by the referees and given appropriate vacancies.
