

Visit to UzExpoCentre

On March 15, the students of Group 308 of the specialty of MWR paid a visit to the 14th International Agricultural Exhibition in UzExpoCentre with their supervisor, the docent of the department of Hydraulics and Hydroinformatics K.T.Rakhimov.

The students were acquainted with the latest technologies and techniques used in agriculture. The participants asked questions about interesting aspects. Most importantly, the students returned with great impressions from the exhibition. They said that they had the intention to participate in such exhibitions in the future.

R.Jumaniyozov, the press secretary of the institute
