

COOPERATION

Cooperative works with the other water-industrial organisations are organized in the department. It has signed contracts with a lot of agricultural and water-industrial organizations. For example:

1. Scientific-research Institute of Irrigation and Water problems.

2. HYDROPROJECT Organization.

Representatives of the project organisations joined State Attestation Commission on the base of joint-agreement on cooperation. Masters gain essential information for their dissertation and learn the subjects “Organising Management” and “Best experiences of masters` dissertation”.

Moreover, there are other cooperative works with some institutions and colleges:
