Since its inception, the department has been producing specialists, over the years it began to prepare and produce specialists - mechanical engineers in specialty 1514 - "Mechanization of irrigation and drainage works". In connection with the increase in demand for trained specialists in this field - mechanical engineers, 100-125 specialists began to produce each year, meeting the demand. In 1997, the law "On Education" was adopted and higher education was divided into two levels, that is, bachelor's and master's degrees. In connection with the change in the state standard of education, the specialists were included in the educational direction "Agroengineering" and began to be trained according to a single curriculum and graduated in this specialty. By 2000, only 10-15 specialists were trained in this specialty per year. Since 2004, much attention has been paid to increasing and strengthening the capacity of the department. During this period. K.A.Sharipov (2007), R.K. Musurmonov (2009), B.S.Mirzaev (2015) defended their doctoral thesis, and the assistant of the department B.Kh. Norov (2011), defended his thesis in a specialized council. The lecturer of the department A.K. Igamberdiev in September 2017 successfully passed the Scientific Seminar and successfully defended the preliminary defense of his doctoral dissertation. The main defense is scheduled for the month of November 2017. The doctoral candidate of the 3rd year department Sh.Zh. Imamov early in October 2017 prematurely defended his doctoral dissertation.
